With over four years of software development experience, I specialize in Python and Django, proficiently using tools like Tkinter Beautiful Soup, Scrapy, Selenium. I excel in project design, development, and effective teamwork. Notably, I have spent over two years dedicated to elevating WordPress development, contributing significantly to three successful e-commerce sites and more. In WordPress, I've demonstrated my ability to create user-friendly and interactive websites that seamlessly blend aesthetics with functionality. My focus has been on customizing powerful plugins like WooCommerce, WC Checkout Lite, and more, enhancing the overall user experience. My adaptable skill set across Python, Django, and WordPress drives my passion for innovative solutions in software development.
